Nazis Drive Spearhead Through Russian Lines

INCREASE MAY CARRY TOTAL TO 1,500 LATER

GERMAN SIEGE GUNS WITHIN RANGE OF CITY

Attack in South Drives Wedge Into Defenses of Stalingrad.

By The Associated Press
German siege guns farther back than the southern approach to the city and that German tanks driving from the rear cut a dangerous wedge into the Red army's defenses.

Several dispatches said the German attack from the northwest was checked at the very approach to the city and that German tanks driving from the rear cut a dangerous wedge into the Red army's defenses.

Russian anti-aircraft gunners were reported to have halted a charge by 40 German tanks on the northwest approach until reinforcements arrived.

Hunter's headquarters said German defenders had been driven back a series of strong, but broken positions and that German counter-attacks were repulsed.

A heavy broadcast yesterday said the Germans had advanced within 10 miles of the city.

Dispatches to Red Star, the Soviet army newspaper, said Gen. Peter von Brock was throwing 200 tanks, masses of infantry and large numbers of planes into the battle from the south.

Russian and Romanian divisions were reported speeding eastward to meet the ranks of Nazi troops. More than 1,200 tanks were killed in the last 24 hours, a Russian communiqué said.

In the battle of Egypt, British desert armies lashed out at the German forces in the southern sector of the 35-mile El Alamein front, 80 miles west of Alexandria, counter-attacking German armor's new four-day offensive.

British GHQ said British mobile columns, striking from the east and southeast, attacked and destroyed the enemy, destroying many vehicles.

The attack, strongly supported by armor and aircraft including 100 bombers, centered on the El Alamein front, where German armor's new four-day offensive.

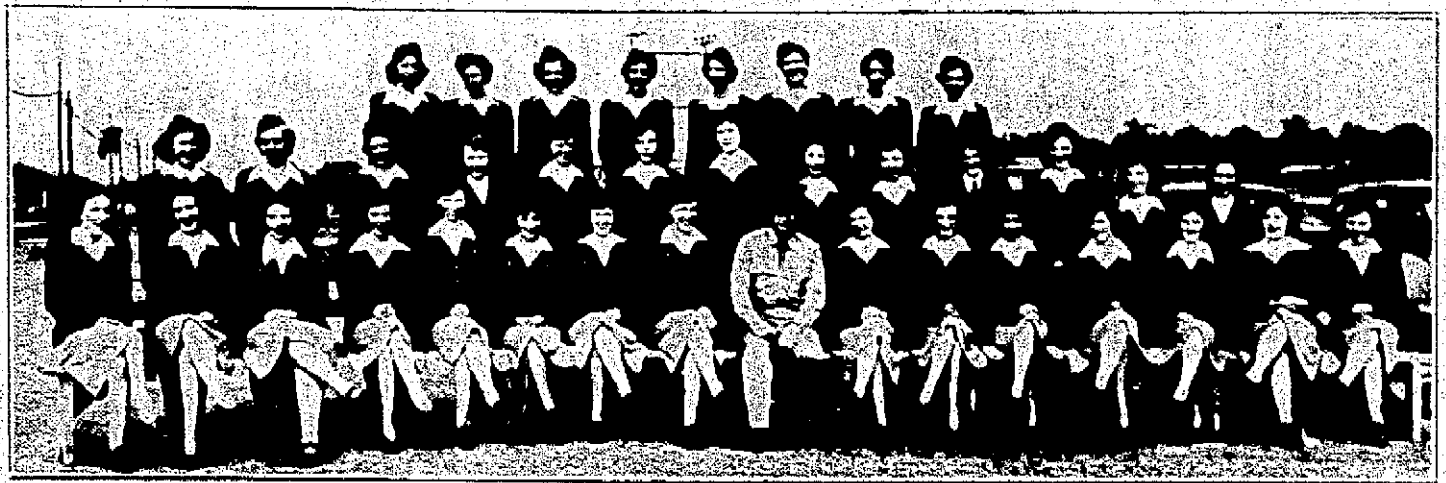

British headquarters said Rommel's mechanized armies were pushed to a record-breaking retreat yesterday, with American and RAF planes sweeping the battle area from dawn until dark.

New York radio, a communiqué said, had no more bombing sorties being carried out in one day than the rest of the African theater.

There will be no sign of a major breakthrough such as marked Rommel's impetuous offensives in the past, it began to appear that the German had met his limit.

There will be no sign of a major breakthrough such as marked Rommel's impetuous offensives in the past, it began to appear that the German had met his limit.

Army Women at War Plant Adopt Own Uniform

Women employees of the army, corps of engineers at the Selco Ordnance Plant are shown above in the new uniforms they recently adopted voluntarily and are supplying out of their own funds. The group, pictured with Major Robert Lockridge, area engineer, also has undertaken the furnishing of a lounge and rest center for all women workers at the plant. In the top row, left to right, are Miss Florence Pinkerton, Mrs. Bernice Garstner, Mrs. Julia Ann Phelps, Mrs. Helen Guthery, Mrs. Hilda Rudacille, Mrs. Avis Landon, Miss Ruth Porter, Mrs. Lillie Ann Riglish. In the middle row are Miss Dorothy Laack, Miss Gladys Fruth, Mrs. Mary D. Uish, Miss Joan Austin, Mrs. Naomi Cram, Miss Ethel Oberdier, Miss Jean Fisher, Miss Robt. Converse, Miss Elaine Manscham, Mrs. Ruth Scheiderer, Mrs. Margaret Haines, Mrs. June Greenland and Miss Julia Pelick. In the front row, left to right, are Miss Martha Poling, Miss Starling Dixon, Miss Dorothy Dury, Miss Ruth Schaumleffel, Mrs. Rachel Morgan, Mrs. Elizabeth Gillig, Mrs. Marian Huddell, Mrs. Hazel Shorter, Major R. W. Lockridge, Mrs. Lillian Moser, Miss Bessie Henderson, Miss Shirley Tracy, Mrs. Ruth Thomas, Miss Martha Quaintance, Miss Josephine Ettore and Mrs. Violet Brown.

LABOR DEMAND UP TO NELSON

WPB Head To Consider Request for Additional Representation

WASHINGTON, Sept. 3.—Organized labor, carried directly to Donald M. Nelson today, its demand for "a place at the top" in guiding production policy and for labor representation on the war production board itself.

As an outgrowth of representations made by the leaders of 20 AFL and CIO unions at last week's labor-WPB conference on materials shortages, WPB Chairman Nelson arranged to sit down with a six-man labor committee for what he called an afternoon of "the frankest kind of talk."

Mr. Nelson, sources refusing to be quoted by name, predicted Nelson would grant labor a voice in drafting production policy equivalent to that of other board members. They also expressed belief the council table chair vacated by Sidney Hillman would be filled by Wendell Lund of Detroit.

Hillman has not attended a board session since the labor division which he headed was abolished months ago and replaced by the labor production division under Lund.

Speculation centered on Lund as a probable choice because he is, in a sense, Hillman's successor in WPB and because he has no labor affiliation which would make him objectionable to either CIO or AFL. A former director of the Michigan unemployment compensation commission, Lund was named to his present job with approval of both labor factions.

The labor officials last week accused WPB of being "unbalanced and one-sided" in its approach to war production because they said key positions were held by men whose "experience and background are those of corporate management." This strong language was subsequently stricken from a resolution presented to

FREIGHTER FOUNDERS IN LAKE SUPERIOR

One of Crew of 25 Missing, Others Rescued.

CLEVELAND, O., Sept. 3.—The American Steel & Wire Co. freighter Steelvender, foundered about 15 miles east of Manitowish Island in Lake Superior today but at least 24 of the 25 crew members were saved by nearby vessels.

Cleveland district court guard headquarters said.

The all-steel vessel, used to carry steel, was 250 feet long and was constructed in 1923.

Allies Only Hope of Youth, President Tells Students

Axis Can Offer Only Death, Roosevelt Tells Conference in Address Broadcast to Young People.

WASHINGTON, Sept. 3.—President Roosevelt told young people of all the world today that German Nazis, Italian Fascists, and Japanese militarists have nothing to offer but death while "the cause of the United Nations is the cause of youth itself."

His words were broadcast internationally and were directed to young men and women in the United Nations and in axis nations and axis-dominated lands.

The cause of the United Nations, Mr. Roosevelt declared, is "the hope of the new generation—the generations that are to come—hope for a new life that can be lived in freedom, and justice, and decency." He added:

"This fact is becoming clearer every day to the young people of Europe, where the Nazis are trying to create youth organizations built on the Nazi pattern. It is a pattern devised by Hitler himself and imposed upon youth by a form of mental force-feeding—a diet of false facts, distortions, and prohibitions—all backed up by the guns of the gestapo."

They Give the Answer
Any who wonder what the decent youth of Europe think of this, he said, have but to consider the brave young men in occupied countries who prefer firing squads to life long slavery and degradation under Hitler.

Throughout the world, men in America's fighting forces were listening to their commander in chief. Much of the address was directed specifically to them and he gave assurance that "we here at home are supremely conscious of our obligations to you," now and in the future, and "we will not let you down."

The United Nations, Mr. Roosevelt asserted, have the technical means, physical resources, courage, vision and will required to build and sustain the kind of world order which alone, he said, can justify youth's sacrifices now.

"But we must keep at it—we must never relax, never falter, never fear—and we must keep at it together," he said.

"We must maintain the offensive against evil in all its forms."

BATTER NAZIS ON LAND, IN AIR

Rommel's Forces in Africa Are Subjected to Fierce Attack by Britain, U. S.

CAIRO, Sept. 3.—Field Marshal Erwin Rommel's axis army, moving forward for a showdown in the battle of Egypt, was subjected to a record-breaking bombardment yesterday by American and RAF planes supporting counter-attack British ground troops.

Never before since the start of the North African campaign, a communiqué said, have so many bombing sorties been carried out in the course of a day.

From dawn until after dark allied bombers shrouded the battle area, unloading high explosives on Rommel's communications and troop concentrations in an effort to break up his preparations for an all-out assault on the El Alamein defenses line.

At the same time enemy forces which had sifted through minefields in the Ruweisat-Hilmeimat sector on the extreme southern flank of the line were attacked from the east and southeast by mobile British forces.

Many axis vehicles were destroyed, headquarters declared.

Considerable activity also was reported on the part of the axis air force, resulting in numerous dogfights in which the communiqué said, six German dive bombers and nine fighters were shot down.

In London, an unidentified British source said Rommel's failure to strike in full force after concentrating a great weight of armored equipment for a general offensive might mean he had been surprised by the violent artillery and air bombardment which met his first thrusts.

POLICE HOLD SCORES
BELFAST, NORTHERN IRELAND, Sept. 3.—Police detained scores of persons last night in a roundup of political suspects growing out of disorders which accompanied the execution yesterday of Thomas Williams, member of the outlawed Irish republican army, for the slaying of a constable.

John Payne, handsome young star of the screen, will replace Fred Astaire in the trio of Hollywood stars coming here Tuesday, Sept. 15, to promote the sale of war bonds in the nation-wide billion-dollar drive during September, "Salute to Our Heroes" month.

Announcement of the change came late yesterday at the Marion county war bond committee was completing preliminary arrangements for a \$750-a-plate "V" dinner at 6:30 p. m. at Hotel Harding.

Marion War Bond Dinner Arranged for Film Stars

\$100 Bond and Plate to Dinner on Sept. 15 To Cost \$76.50.

John Payne, handsome young star of the screen, will replace Fred Astaire in the trio of Hollywood stars coming here Tuesday, Sept. 15, to promote the sale of war bonds in the nation-wide billion-dollar drive during September, "Salute to Our Heroes" month.

Announcement of the change came late yesterday at the Marion county war bond committee was completing preliminary arrangements for a \$750-a-plate "V" dinner at 6:30 p. m. at Hotel Harding.

For the \$76.50 dinner, patrons will receive a \$100 war bond and a \$1.50 dinner, and will have the treat of dining with Payne, lovely Bette Midler and Canadian Hugh Hefner.

Tickets for the "V" dinner were being printed today and will go on sale Friday. Patrons will be seated in the main ballroom.

For the \$76.50 dinner, patrons will receive a \$100 war bond and a \$1.50 dinner, and will have the treat of dining with Payne, lovely Bette Midler and Canadian Hugh Hefner.

Horse Show Ends; Boosts Fair Turnout to 15,000 in 2 Days

Harness Races, Style Show and Circus on Today's Program; Radio Troupe Due Friday.

(More fair news on Pages 3 and 21.)

Between 2,000 and 2,500 persons were in the grandstand last night when the final session of the first horse show in Marion county history closed the second day of the 1942 four-day Marion county fair.

The show was one of the headline attractions this year and contributed heavily toward pushing attendance for the two days to around 15,000, well over figures for corresponding days last year.

Officials looked forward to the programs today and Friday setting new attendance records.

Highlights of today's program were the second day of harness racing, a 4-H club style show in the art hall and a circus tonight at 8 in the oval in front of the grandstand. Admission to the grounds will be 35 cents, including tax, and to the grandstand, 40 cents, including tax.

Closing entertainment of the fair will be a performance by the Renfro Valley Band Dance troupe Friday night at 8.

Last night's turnout of horse fanciers from Marion and surrounding counties at last night's final session of the horse show, brought total attendance for the two night shows to about 4,000.

Top Money Winners
Horses owned by Mrs. David Davies of Columbus and exhibited by Mrs. Davies and Jockey Tom McCray were the outstanding entries on last night's program. Four of the five Davies' horses were first place winners. A fifth placed second. Checkmate, a brown mare, was first in the model three-gaited class and second in the three-gaited stake. Midnight Streak, a black horse, won first in the stallion or gelding five gaited class, and the five gaited stake. Mrs. Davies' Parading Promise, a bay horse, won first in the harness stake, a \$200 purse event.

In Tuesday's show the same horse was first in the ladies fine harness stake. Dr. Elrod's Buckeye Lady, a dapple gray mare, was first in the junior five gaited class. Mary Genus, his only other entry, second to Mrs. Davies' Midnight Streak in the Universal Cooler Corp. five gaited stake.

Royal Sam, driven by Mrs. Elrod, second to Mrs. Davies' Parading Promise in the Idle Hour fine harness stake.

Marion Horse Show
Marion horses again played important roles last night. Louis Wickersham's six gaited horse was second to Mrs. Davies' Checkmate in the three-gaited class. Dorothy of Mag Springs, the winning team, was matched with Royal Sam to Zachman Dairy show wagon.

Wickersham, who is proprietor of the Idle Hour farm, also showed several horses in the Gay Nineties class. A brown and white spotted team owned by Wickersham and driven by Mr. and Mrs. Cleo Porterfield was first in this class.

Other entries were driven by Mr. and Mrs. C. L. Campbell and Will Wickersham, all of near Marion.

Victory Bond and My Ladyship, both owned by Carl Kull of Marion, showed in several classes. The former horse was third in the junior, fine harness class.

T. S. Ponder's Princess Patricia, a black horse, was entered in three events and was judged fourth in the ladies three gaited class.

Part of the show horses now stabled at the fairgrounds will be taken to Mt. Gilead, where a show will be held Saturday, Sept. 12. Many others will be shipped to Memphis, Tenn., scene of one of the largest shows in the country. Others will be shipped to other Ohio communities.

Contributing no small part to the success of the program was many of the nation's foremost program.

Authorization of Government Construction Is Voted by NHA.

The National Housing Agency has approved 300 government built housing units for Marion.

It also has made allowance for a possible increase in this number to 1,500 units.

This announcement came today both from Washington, from Selco Ordnance Plant officials, and from Congressman F. C. Smith of Marion.

This development is the first definite step of the federal government toward stepping in with facilities to provide homes for the thousands of workers that will be needed to operate the Selco Ordnance Plant.

If the full 1,500 houses are built—and officials here declared all that number will be needed—the cost will be somewhere around \$4,000,000.

The location of the houses is expected to be in a more or less concentrated area either near or on the land of the Selco Ordnance Plant. This would make the homes of workers conveniently near the plant.

No Decision Made
However, nothing definite about the site has been decided. There are several possible sites under consideration, including one of the Ordnance Plant property. Such factors as the proximity of sewer and utility facilities are expected to enter into the final decision.

The houses are almost certain to be of a demountable type. This would not only permit speedy construction of the houses but also would permit their removal in later years if they were no longer needed here.

Whether they will be single houses or multiple-family structures such as the eight-family buildings that have been used by NHA in many areas is likewise uncertain.

The next step toward actual construction is for the NHA to obtain the property privately at a price from the War Production Board, and steps are already being taken to keep Marion's needs before federal officials to assure early WPB action.

When construction will start is as yet uncertain, but it is expected the need will become as critical in Marion in the near future that construction work will become imperative in a matter of a few months or even a few weeks.

The National Housing Agency is an over-all organization coordinating and embracing all previously existing federal housing agencies. It is expected to arrange for government construction of the houses here and to make them available for rent to Selco Ordnance Plant workers.

Whether any would be available to war workers in other factories is not known, but it was emphasized that the Ordnance Plant personnel would more than exhaust the supply of houses contemplated in the program announced today.

Conference Held
Today's announcement followed a conference in the NHA headquarters in Washington Wednesday attended by a representative of the commanding officer's office of the Selco Ordnance Plant, officials of the U. S. Rubber Co. which will operate the plant for the war department, Congressman Smith of Marion and his secretary, Harry Brookshire, Senator Burton of Cleveland and officials of the NHA including Director John Blanton.

The whole housing problem in Marion was discussed in a two-hour conference, and numerous figures, some of them of a confidential nature, were cited in support of the request for federal houses here.

Some of the points brought out were that private builders would be permitted to construct 1,000 houses for Selco Ordnance Plant workers, but this quota has not been used up. Even if private builders were to exhaust this number, Marion's population has so grown that it could use all 500 exclusive of any of the operating personnel for the war plant.

Need Is Urgent
Marion's housing situation is a really critical. Evidence of workers renting homes in nearby towns and commuting daily was cited. Also, one report has been received by officials here that 36 persons are living in one moderately sized house.

It was pointed out that the Selco Ordnance Plant is the nation's largest operation of its kind in the world.

Tennessee Vets of '17 Together in Army Again

By The Associated Press
CHATTANOOGA, Tenn. — Walter S. Hooten and Robert Eaves, both 42, volunteered to go back to 17, trained together, went overseas together and fought side by side at St. Mihiel and the Argonne. After the war, they were mustered out together, receiving their honorable discharges on the same date, April 15, 1919. Recently, they met again on the same posthouse lawn from which they left a quarter of a century ago. They planned quickly at each other's expense. "You too?" "Yes, and you?" It was true—they had been drafted on the same day for another war, and they commented: "We hope we can stay together through this one."

BACKS INDIA

Dr. B. N. Chandra Prasad, says "Common sympathy is entirely with the Indians" in freedom struggle.

OVERTAKE SHIP LOSSES

By The Associated Press
BAMBERG, O., Sept. 3.—American shipping line methods will produce record for early American ship to sea and return, says Dr. B. N. Chandra Prasad, Indian ship builder and ship owner, who is visiting here on his way to the United States. He is the president of the Indian Ship Building Association, which is the largest ship building organization in the world. He is also the president of the Indian Ship Building Association, which is the largest ship building organization in the world.

NO CELEBRATION

By The Associated Press
CANTON, O., Sept. 3.—Canton's organized labor will take no time off from work to celebrate this year's Labor day in order that it may have a greater celebration in 1945. The Canton Federation of Labor, AFL central body, made this decision last night and similar action was expected to be taken tonight by the state county and national unions, CIO central body.

VETS CONSIDER RESOLUTIONS

By The Associated Press
CINCINNATI, Sept. 3.—Consideration of resolutions and nominations of officers occupies the Veterans of Foreign Wars at their 45th annual convention today. Yesterday delegates approved a resolution condemning attempts to take advantage of the present war crisis to again force a prohibition act on the various states against the wishes of the majority of the people.

ABC of the Rubber Situation

Hunt for Victory Crop

SOMEDAY, THEY'LL BE TIRES—The government has tackled the job of raising a crude rubber supply, even though the realization is several years away. Here, in the Beltsville, Md., experiment station, an expert checks the growth of guayule plants, one source of rubber.

This is the last of a series of articles about the country's rubber situation.

By ALEXANDER E. GEORGE
Wide World Features Writer
WASHINGTON — Good old crude in comparatively small amounts from Latin-America and Africa will help our new synthetics keep the nation's rubber cupboards from going bare.

This year's shipments are expected to total about 35,000 tons—some 17,000 tons from Africa, 14,000 tons from Brazil and Peru and 4,000 tons from Central America, including Mexico's guayule.

These contributions will amount to only 1 per cent of the United Nations' requirements of 800,000 tons. But because crude can be made to go much farther by mixing with scrap and some of the synthetics, it will help a lot as our stockpile of natural rubber grows smaller.

Outlook Not Promising
Here in the U.S.A. there are many species of trees, shrubs and plants which are sources or "may be" sources of natural rubber. However, plant specialists of the Department of Agriculture say that none of these as yet gives promise of providing large supplies within the next two or three years.

One of the most promising, say the experts, is guayule. Seeds of this slow-growing desert shrub are being planted in the Southwest, but it will take four years or more to grow enough to make a substantial contribution to the rubber supply. Congress has authorized the planting of 75,000 acres. At least 600,000 acres would be required, say the specialists, to provide a sixth of the country's normal needs.

Others Studied
Uncle Sam's plant specialists are giving considerable attention to two species of Cryptotegia, a Madagascar rubber vine, which has been planted in many parts of Florida for ornamental purposes. Rubber from these vines, which are limited to frost-free areas, is of good quality, but the yield runs only from 2 to 3 per cent and no practical method of extracting it has been found.

Considerable publicity has been given to the Russian dandelion, but the Department of Agriculture says the yield of rubber from the plant has been "pitifully small."

Selected goldenrod has given promise of a substantial rubber content, but the experts say that up to the present the quality has been low. Satisfactory methods of extraction have not been devised. There are two species of

markings which could be used to identify the seeds. In large quantities in desert areas, the seeds are very low and so method of building it commercially has been developed.

Rabbit Brush Too Expensive
The rabbit brush, which grows in California, Arizona, Nevada, New Mexico and Utah, contains appreciable amounts of rubber. Good stands of it are common in the widely-scattered local areas. It requires considerable labor to collect and transport it, and would require enormous quantities of land to produce enough to meet the needs of the country. At this stage of investigation, agreement regarding the regulations of the Agriculture Department's study pending the regulations.

This is not true of one group, the group of those who are angry at Washington inefficiencies, politicking and procrastination, but these are not really valid first class grade A naters. They do not belong with the others. They are just impatient to get on with the war, and Washington is not doing enough to suit them. If the truth could be known, this group would probably include everyone in Washington, and, even, to some extent, Mr. Roosevelt himself. This impatience is constructive. It provides healthful kicks in the pants for laggard officials, not mean, low loathesome destructive hate. It will help to win

Message to Haters

Don't forget this, all you haters:

Hate alone breeds hate. Bitterness alone can make bitterness. If you want to radiate it, you are pretty apt to get a full dose in return. Also you are making a big mistake if you think you can get a majority of the American people into your mood, while there is a world fire to put out.

I did not read the magazine articles some readers called to

Social Affairs

DELTA chapter of Beta Sigma Phi, recently will start its fall and winter activities with a guest day party Oct. 7. Plans were made at a meeting last evening at the home of Miss Margaret Gearing of 733 Cheney avenue to secure a booth in the downtown section to sell war bonds and stamps.

Miss Ruth Thomas and Miss Juanita Frost of the chapter were guests.

MRS. EARL McWHENTER of 913 Barks avenue entertained Tuesday evening at her home with a miscellaneous shower for Mrs. Dale Brunner, the former Miss Dorothy Myers.

Mrs. Brunner was given a fishing pole and sent on a fishing trip in a miniature pond with a miniature wooden house. The fish were dressed as brides and grooms and contained clues to where she would find her gifts, which were hidden in a treasure chest at the bottom of the pond.

The house was decorated with flowers and the favors were tiny brides and bridegrooms on hand-painted shells in the bride's colors of blue and white. Mrs. Mc-

Whenter was assisted by her mother, Mrs. Edna Williams. Honors in attendance went to Miss Eleanor West and Mrs. Mary Houghton. Present were the nones: Mrs. Gertrude Myers, Mrs. Gertrude Myers, Mrs. Walter Moore, Mrs. Mary Houghton, Mrs. Virginia Hentze, Mrs. Ted Frank, Misses Eleanor West, Verna Mae McWhenter and Ruth Gelbaugh of Marion and Mrs. Oscar Lepp of Mt. Gilead.

"School Days" was the theme of the Carpe Diem club meeting at the home of Mrs. Joan Buckley of the Marion and Upper Sandusky road yesterday afternoon. The meeting was opened with singing of "School Days" and the members answered the roll call with the name of the first school they attended.

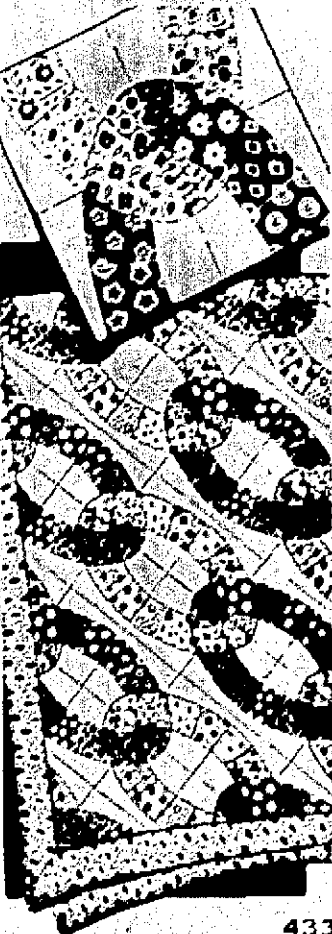

Devotions were in charge of Mrs. C. M. Peterson. The club voted to send boxes to Corp. George Peterson who is stationed at Plant Field at Tampa, Fla., and Staff Sgt. Collis Risch of Indianapolis City, whose mothers belong to the club.

Mrs. D. W. Hinamon and Mrs. Donald Tower gave a playlet, "Cheering Up the Sick." Mrs. Rudolf Risch read a poem, and Mrs. Paul Lill gave a vocal solo with O. C. Young at the piano. The guessing contest conducted by Mrs. P. G. Shoals, was won by Mrs. Mable Grady.

Guests were Nancy Lou Tower, Jill Pluechel, Marguerite Jean and Helen Barclay. The next meeting will be Oct. 7 at the home of Mrs. Rudolf Risch.

Mr. and Mrs. J. C. Koehler and daughter, Betty, of 328 South State street gave a farewell party Tuesday evening for Billy Craven who has enlisted in the ground

NEEDLEWORK PATTERN

by Laura Wheeler

A scrap quilt that combines beauty, economy and sentiment is this one, Link of Friendship. Make it of scraps donated by your friends for remembrance—the old idea of a Friendship quilt. Pattern 433 contains diagram of block; accurate pattern pieces; directions for quilt; diagram of quilt; yardage.

Send Eleven Cents for this pattern to The Marion Star, Needlecraft Dept., 22 Eighth Avenue, New York, N. Y. Write plainly Pattern Number, your Name and Address.

Galion Woman Formerly in China Talks To Guild

MRS. FREDA HARTMAN of Galion, formerly a missionary in China, spoke to the Women's Guild of the First Evangelical and Reformed church at a meeting last night at the church. Her subject was "The Needs of Our Country in Danger of Crisis," and she also told of the letters she receives from her husband who is in Free China.

Devotions were led by Mrs. Freda Warner and Mrs. Lois Augenstein presented the lesson topic, "The American People and Their Daily Bread." Mrs. Augenstein was assisted by Mrs. Erma Weir and Mrs. Maude Weber.

A report of the executive meeting of the Council of Church Women was given by Mrs. Grace Hoffman. She invited all church ladies to a tea Oct. 9 at Epworth Methodist church. She requested that all newcomers in town be contacted and invited to the tea.

Delegates to the synodical meeting at Kenton Sept. 22 and 23 were elected. Mrs. Weber reviewed her committee's plan to form new circles from the guild membership.

LABOR

(Continued from Page 1)

Nelson, but not until it had been read to him in connection with presentation of the labor program.

Nelson asked for more specific suggestions and ideas, to be presented by a smaller group, and gave assurance they would get earnest consideration.

Want Planning Board

Besides "direct and effective" representation on WPB, the labor statement asked creation of a "production planning and coordination board" in WPB having labor representation with authority over the planning and integration of the whole war production program; joint policy committees of labor, government and management in every WPB branch and division; and elimination of overlapping jurisdiction among the government agencies responsible for war production.

The six-man committee chosen by the labor officials to present their program is the AFL-CIO policy committee created by Lund to advise him on production policy and labor's role in the war effort.

The CIO members are Walter P. Reuther of the United Automobile Workers; John Green, head of the Industrial Union of Marine and Shipbuilding Workers; and Clinton S. Golden of the United Steel Workers of America. The AFL representatives are Frank P. Fenton, director of organization; John P. Frey, head of the Metal Trades department; and George L. Brown, president of the Plumbers and Steamfitters Association.

mechanics crew of the army air forces. He will be stationed at Ft. Benjamin Harrison, Ind. The evening was spent socially. Honors in hearts went to Mrs. S. F. Miller and W. E. Smith. Those present were Mr. and Mrs. Lester Craven, Mr. and Mrs. S. F. Miller, Mr. and Mrs. W. E. Smith, Mrs. Ralph Craven, Mr. and Mrs. Don Miller, Mr. and Mrs. Clifford Corbin, Richard Smith, John Miller, Janet Koehler and the guest of honor.

Personal Mention

Mr. and Mrs. W. J. Ends of New York City have arrived for a visit with Mr. and Mrs. M. L. Wilson of Harding Highway-E. When they leave this week-end they will be accompanied by their son, William George Ends, who has been visiting at the Wilson home for the last 10 days. Mr. Ends, a former member of The Star staff, is now news editor for the New York bureau of The Associated Press.

Golf Pros Aided

BELFAST — The influx of United States soldiers has proved a boon to Northern Ireland's golf professionals.

None of the doughboys and officers brought their clubs, but the lure of famous links has proved too much for them, so they're renting clubs at a rate that has provided a roaring business for the pros.

Disillusioned

CHATTANOOGA, Tenn. — A youth, in jail for the first time, knows better now.

When the trusty brought individual pots of beans for the prisoners, he bowed his head after one of the other prisoners called, "Let's say grace." Nobody said anything. He looked up. His pot of beans was gone.

BABY DELIVERED BY RADIO

Following instructions relayed to them via telephone and radio two Kentucky county policemen acted as midwives and delivered a seven-pound baby boy 50 minutes after the death of his mother in a remote section of Jefferson county. The officers, William Sturgeon, left, and William Snellen, right, were directed in their obstetrical operation by the county health officer. The mother, Mrs. Helen Whitlock, 36, died because of lack of medical care. The baby, now in a Louisville hospital, is shown with the two officers, a nurse and Radio Desk Sergeant Ray Neeland of Louisville. Officer Snellen previously saved 11 lives in his career as a policeman.

shared by Mr. Conroy and Mr. Josephine Weaver and Mrs. Conroy. Mrs. Weaver brought about the organization of the radio club.

Glenn Dale Hoffman, son of Mr. and Mrs. R. L. Hoffman, has enlisted in the navy and will go to Cleveland Sept. 23 for his final examination.

Family Reunions

Mrs. Ava Strine of Columbus spent a two-week vacation at the home of her parents, Mr. and Mrs. Harry Strine of Mt. Vernon. While visiting here, Mrs. Strine accompanied Mr. and Mrs. Mett Porter and daughter, Marion, to Lake Erie where they spent several days.

Trayer Wally of Upper Sandusky spent Tuesday with relatives and friends in Marion.

Crestline Missionary Society Has Meeting

CRESTLINE, Sept. 3 — Miss Mary Helmer and Mrs. Edward Sprout entertained the Women's Missionary society in Calvary Reformed church Tuesday. Mrs. Floyd Kreps led devotions. Mrs. A. C. Smith was elected a delegate to the synodical meeting in Kenton, Sept. 22-23.

The Past Presidents club of American Legion auxiliary met with Mrs. A. C. Smith. Officers elected are Mrs. Floyd Kreps, president and Mrs. Chester Jones, secretary-treasurer. Bridge and rock prizes were awarded Mrs.

Ordinance Plant Chorus Formed; To Present Canteen Benefit Concert

Former Metropolitan Opera Singer Serves as Instructor; Group Open to Marion Singers.

Marion's newest musical group, the Ordinance Plant Chorus, is now in rehearsal and plans to include a public program, proceeds of which will be turned over to the women's canteen for service men at the Union station. One of a series of rehearsals to prepare for the program was held last night at the Y. M. C. A. T. A. Boltz, who served as organizing chairman, is president of the organization, and the director is Frank Conroy, former Metropolitan opera singer. Howard Carter is the assistant director.

Officers Listed

Serving as officers with Mr. Boltz are the following: Ethel Marie Owens, vice president; Kay Schill, membership secretary and treasurer; Wilma Ehrlich, social secretary; Julia Phelps, recording secretary, and Philip Santostia, librarian.

Rehearsals are held each Wednesday night from 7:30 to 9:30 o'clock at the Y. M. C. A. and it is the hope of the membership to enlarge the chorus with persons interested in the work both from the ordinance plant area and the city. Local singers interested in joining the group may consult some member of the chorus for details.

Among the selections now being rehearsed are "My Hero" from "The Chocolate Soldier," Strauss, "On Great Lone Hills," from "Finlandia," Sibelius, "Serenade" from "The Student Prince," Romberg, and "Shenmin Bread," by Jacques Wolfe.

Former Akron Singer

Mr. Boltz, tenor, came here from Akron where he studied and became active in music circles. He sang in a number of churches, among them the Main Street Methodist, First United Brethren, First Universalist, North Hill Church of Christ and Trinity Evangelical and Reformed. He was a charter member of the Akron Singers club and later was instrumental in organizing the Minersingers, serving as president for four years. During his high school and college years he was a director of glee clubs. The mutual interest in music

Testimonial Farewell Dinner Given for Assistant Pastor at St. Mary

Rev. Father Rauth Honored: Leaves Marion To Begin New Duties at Carthage, O.

A testimonial dinner in appreciation of his work in the parish and parish was given last evening at Hotel Harding for Rev. Father Rauth, assistant pastor of St. Mary's Catholic church and rector of the parochial high school here for the last two years. He left for Carthage, O. where he will be stationed at St. Charles' seminary.

Covers were placed for approximately 100 members of the parish, high school and church club and guests, including Rev. Father Joseph Dean, McGuffey, S. T. D., pastor of St. Paul's church in Cincinnati, Rev. Robert Hillier, O. M. C. instructor at Our Lady of Mercy, and Rev. Father Rauth's wife, Mrs. Rauth. Rev. Rauth's wife, Mrs. Rauth, was here. Rev. Rauth has been spending a few days with his parents, Mr. and Mrs. T. J. McFarland of East George street.

Miss Mary Jane Long presided as toastmaster, and talks were given by Rev. Father William J. Spickman, pastor, Margaret Ann Luke, who will be a senior in the parochial school next year, Robert McFarland, treasurer of the church club, Rev. Rauth, Rev. Luter and Gene Fetter.

Rev. Spickman praised the work of his former assistant and commented particularly on his success in his work with the young people of the parish. To Rev. Rauth he said: "Our prayers go with you for a very rich and happy association in your new field of labor." He expressed his

HUGH GIBSON DIES IN BARBADOS, B. W. I.

Word Received by Widow's Uncle, J. W. Nelson.

J. W. Nelson of Hotel Marion, received word last evening that Hugh Gibson, a young man from Marion, had died in Barbados, B. W. I. The telegram stated that death had been sudden, but no cause was given.

Mr. Gibson and his wife had a side circle of friends in Marion. Their last visit here was about three years ago, when they were enroute to England from India. Mr. Gibson had retired after years of service in the British government as a conservation officer. Because of Mr. Gibson's health, they changed their plans and left for Barbados. Mr. Gibson was a native of England. He and the former Miss Nelson met while she was traveling abroad.

Mrs. Gibson is a niece of the late D. C. Nelson, whose widow lives at 408 East Church street.

Fire Destroys Barn in Wyandot County

UPPER SANDUSKY, Sept. 2.—Fire destroyed a barn on the Henry Stewinger farm south of Sandusky, Tuesday at about 11:30 p. m. Loss was estimated at over \$5,000.

Girl Sniper Gets 309 Germans, but Talk Scares Her

By The Associated Press

WASHINGTON, Sept. 2.—Princess, brown-eyed Senior Lieutenant Pauline, Red army girl-sniper who says "dreadful Germans are harmless"—and who is credited with personally making 309 of them quite harmless—today can chalk up another but different kind of victory.

She had flown here from Moscow to bring the greeting of Soviet youth to the international students assembly.

But she was scared. This public speaking business was a bit different from lying in ambush 18 hours to take a shot at a German.

She sat on the stage of the interdepartmental auditorium with other foreign delegates, a trim figure in her Red army khaki uniform.

Her hair was cropped short and crisply curly. Her finger and the nine others had nails tinted pink.

The program moved along her name was called—Down front sat Mrs. Franklin D. Roosevelt, who is a member of the U. S. committee of the international student service, which is sponsoring the assembly.

The clasp-clasp of her boots brought the 30-year-old Kiev university history student to the rostrum. She put down her speech before her. She stood quiet still. Then involuntarily she said:

"W-h-h-e-w! The microphone amplified the sigh as the audience of nearly 400 laughed. She laughed, too. Then quite seriously in Russian (translated later) she bespoke the "friendly and military greetings" of the students and all fighting youth of her homeland.

At the end she called out: "Dreadful, bloody Hitler and his henchmen. Long live the strong union of freedom-loving allied nations." The way she said it got the idea across without translation. The applause drowned out the clasp-clasp of her boots as she went back to her seat, flushed but smiling.

Outing Follows Ordnance Plant Golf Medal Play

In that proved to be one of the most entertaining golf events of the season, the Sports Ordnance Golf club sponsored a medal play on Wednesday night.

The tournament was held on the War-O-Del course, followed by a corn and dinner feast. More than 30 plant golfers and friends participated in the handicapped prize tourney, limited to nine holes. Scores were as follows: Walt Tyler, 34; Gene Zediker, 35; (adjudged winner of second prize) Bill Stein, 35; Leo Conway, Bill Kucenovsky and Pat McAllister, 36; Bill Klinger, 37. Prizes consisted of leather billfolds, wool socks and golf balls.

Officiating at the open fire was Bill Brickman, Canadian woodsman, who has had many years experience of open woods cooking. Corn was served roasted in the husks over a not charcoal fire with winners sizzling hot. The party was rounded out by a wrestling exhibition staged by J. G. Kish and Jess Kendrick, Ju Jitsu experts, members of the S.O.C.C. Music and dancing followed.

The next meeting of the S.O.C.C. will be staged the following Wednesday at Mar-O-Del at 5:30 p. m.

Housing

(Continued from Page 1)

workers to rent if they expect to attract high type employees. Many workers, especially those who will hold supervisory jobs, will have to come from other cities, but are not likely to accept jobs at the war plant unless they can bring their families with them.

Aided by Congressman

The commanding officer's office, and the U. S. Rubber Co. have been seeking federal action on government housing for Mar-O-Del for some time, and recently approached Congressman Smith with their problem. Their discussion led to the conference in Washington this week.

The only factor that might interfere with prompt federal action on the Mar-O-Del project is the housing problem faced by some other cities where war factories have created housing shortages comparable to this city's federal officials pointed out.

Probable Developments

The prospects of a large-scale housing project brings with it many possibilities that officials said they are not yet in position to discuss. Among them are the need that such a large development would bring for added school and hospital facilities, and the possible development of increased retail facilities to serve the hundreds of new families.

These and many other community problems are expected to present themselves in the near future as the U. S. Rubber Co. expands its employment at the Ordnance plant. It previously has announced that the bulk of its production workers would come from Marion and nearby communities, and that a large percentage of women will be used. It also is taking into account the fact that dormitory facilities on the Ordnance plant site will provide accommodations for several hundred unmarried men or men who are willing to leave their families elsewhere while they are employed at the plant. Its housing problem, officials pointed out, centers largely around providing homes for supervisory workers who must, because of the special training and experience required, be brought in from other cities.

600 MEAT PACKERS FACE COURT ACTION

By The Associated Press

WASHINGTON, Sept. 3.—The office of price administration announced today that it would file actions in federal courts in 18 states today in connection with a campaign against alleged violations of price ceilings on meat and meat products. The actions are being filed in 18 federal courts in 18 states.

Most of the cases, OPA said, involve so-called "top-grading" of meat and meat products, which were "topped" and "trimmed" and then sold at a profit. The cases also will be charged with issuing incorrect invoices, and failing to issue invoices, as provided for by regulations, OPA said.

OPA will seek injunctions to compel compliance with its regulations. There have been complaints from all parts of the country, OPA said, that packers and wholesale distributors were ignoring price regulations and "were causing all interior cuts above OPA ceilings."

NEW and USED BOTTLE CAPS

Here Are Three Reasons Why We Refuse to Use Reclaimed or Used Bottle Caps

1—No method has yet been developed to adequately sterilize the used crown. Regardless of the method used there is always the danger of contamination.

2—Tests of reclaimed crowns show a percentage of leakers, special machines must be perfected before crowns can be properly reformed.

3—The effect on the customers psychologically because of the unsanitary conditions that used caps are subjected to.

Because of the restrictions on Bottle Caps it is not possible for us to manufacture as much Cleo-Cola and other beverages as our trade demands.

We sincerely hope that this condition is only temporary and that we will soon be able to furnish Cleo-Cola so that everyone can enjoy its rich flavor and goodness. Some of our bottle caps are repainted—they are new caps left over from discontinued flavors. Not one of these caps has ever been used before.

We will not use any reclaimed bottle caps until some method of sterilization has been determined. We will continue however to gather up all the used bottle caps and store them until such machinery is available to recondition these caps.

When you buy Cleo-Cola, Whistle, Bar's Root Beer, Bubble Up or any other beverage bottled in our plant you can rest assured that the cap on the bottle is a new one.

WILL JAPS ATTACK SIBERIA?

The Japs are known to have strong troop concentrations in Manchukuo, the vast area Japan took from China in 1931. There have been rumors in Tokyo that Japan was asking Russia to surrender the northern half of Sakhalin Island, Kamchatka peninsula and the Siberian maritime provinces which embrace Vladivostok to Japan for "safekeeping" until the end of the war. Black area on map shows Japanese territory.

NO SUNDAY SERVICE
There will be no church service at St. Paul's Lutheran church, Prospect, Sunday as the pastor, Rev. Paul E. Dobbertin, is on vacation. The Missionary Aid society will meet Thursday with Mrs. Frank Behrens as hostess and Mrs. Charles McNeal, leader.

Sgt. Russell A. Arthur, son of Mr. and Mrs. Claude L. Arthur of 533 Henry street, has been admitted to the Air Forces Officer Candidate school at Miami Beach, Fla., according to report from the school. After successfully completing an intensive 12

SO Smooth and SO Durable

A Billiard Ball With a ROUGH Surface Is Worthless!
House Paint, Too, MUST Be Smooth to Be DURABLE!

A Paint Film Is NO STRONGER Than Its Weakest Spot!

A microscope shows that ordinary paint films have brush marks which are ridges and valleys. The valleys are the THIN SPOTS where paint failure will occur first. The same microscope will prove to you that

SUPEROVER HOUSE PAINT IS ACTUALLY SMOOTHER

\$2.79 (Per Gal. in 4-Gal. cans)
Single Gal. \$2.79

than any other house paint! Because it is the ONLY House Paint made with

FLOW ACCELERATOR

It presents a smooth, even film without thick and thin spots. Results—

- Superover Has Film Smoothness!
- Superover Has Greater Coverage!
- Superover Has Longer Life!
- Superover Has Greater Hiding Power!

We invite you to compare SUPEROVER with the most expensive house paints selling for \$3.40 per gallon or more!

SAFEGUARD PURE LINSEED OIL HOUSE PAINT \$1.89

Saves the surface and saves you money. We don't claim Safeguard is as good as Superover, but if you wish the best paint your money can buy safely at a low price, you'll make no mistake using Safeguard. For details in 8's.

IT PAYS TO SEED LAWNS IN THE FALL.

DEMOCRATS SHY AT LOWER DRAFT AGE

One Also Warns Against Too Large an Army.

By The Associated Press
WASHINGTON, Sept. 2.—Senate Democrats today for the first time took a stand against the proposed lowering of the draft age to 18 and 19, and one of them warned against making an army so great as to endanger the nation's liberties as "the arsenal of democracy."

Majority Leader Barkley of Kentucky told reporters he had received no request from the White House to inform Senate headquarters for any change in the draft law. He would support such action, he said, only upon request that "it is necessary."

Senator Thomas (D-Ohio), of the military committee, expressed little sympathy for a move to reduce younger men. He told reporters that 18 and 19 year olds should be permitted an additional year or two for the education that "can make a good lieutenant out of an average private."

"Care should be taken," he said, "against going to the extreme in mobilization of an army in view of our commitments to supply our own forces and our allies with ammunition, food and the other materials of war."

Of a nation of approximately 130,000,000, Thomas said, there are approximately 50,000,000 between 20 and 50, and half of that number are women.

"An armed service of 10,000,000 will require one of every three men in that group," he added, "while most of that group must come from the weapons that produce the arsenal of democracy must furnish the United Nations."

Senator Taft (R-Ohio), declaring the administration was waiting "until after the November election" before asking further draft legislation, said he was preparing legislation for the induction of youths under 20.

The measure, he said, would embrace the whole question of voluntary distribution of manpower, and cover selection of married men on a basis of age groups and dependencies.

In Great Britain the volume of goods available for retailers by the end of 1942 will be only one-third of the pre-war amount.

Armored scout car — offers the student more speed and protection than do the early models of a similar German gun. The Nazis, however, have developed an effective "assault gun" mounted in a tank with a 150 mm. gun.

The German army has shown to replace its anti-tank gun, comparable with the American 89-mm. mounted by the late force here, with a new, longer-barreled 150 mm. assault gun.

BIRTHS

Mr. and Mrs. Harvey Campbell of near Mt. Gilead are parents of a daughter born in City hospital in a premature.

A son was born to Mr. and Mrs. Harvey Way of 946 Oak Grove avenue in City hospital in a premature.

Do You Know

The most sparsely populated state in the Union is Nevada, with one person per square mile.

The Portuguese colony of Mozambique, in Africa, is equal to the combined areas of Texas and Louisiana.

Locomotives and freight cars are built in Britain to transport supplies to Russia over the Persian railroads.

Helium takes its name from the Greek word for the sun because it was discovered in the sun's spectrum.

Population of the State of Utah under the impetus of the war program, is estimated to have increased by 90,000 in recent years. The population in 1940, according to the official census, was 559,213. In 1930 it was 113,380.

Marion Man's Dislike for Railroad Crossing Noise Leads to Invention

C. H. Blair Gets Patent on Device to Eliminate Gaps in Rails Where Tracks Intersect.

Because C. H. Blair of 206 Neil avenue didn't like the rumbling noise trains made at the railroad intersection near the Union Station while he was working for the express company some 30 years ago, he invented a continuous-track crossing for railroads.

In Great Britain the volume of goods available for retailers by the end of 1942 will be only one-third of the pre-war amount.

up in knickerbockers and scuffed shoes, not Hitler youth uniforms, marched like veterans. Browned, tough from months of hunting the dirt in battle maneuvers, they looked equal to anything ever put in the field.

Sturdy, well armed M3 tanks which smashed over barricades and flattened old auto hulks like tin cans still looked like easy targets, compared with German tanks of similar weight which presented a much lower silhouette.

The six-ton army rubber pontoon bridge on exhibit, to the layman's eye, seemed to be an advance over the similar German bridge.

German ingenuity hasn't matched the handy five-pound walkie-talkie radio with which a company commander can talk to his headquarters as far as a mile away.

What American army men call a "tank destroyer" — a French 75mm gun mounted on a fast-

moving tank chassis — a doctor's formula for "eczema" —

U. S. WAR ENTRY IS ACCLAIMED

Called One of Outstanding Events of Third Year of Conflict.

By The Associated Press
LONDON, Sept. 3.—The advent of U. S. army air forces in the European theater was declared by the RAF today as one of the outstanding events of the third year of the conflict. The RAF said that the arrival of the American air forces was a "great day" for the British and that it was a "great day" for the world. The RAF said that the arrival of the American air forces was a "great day" for the British and that it was a "great day" for the world.

Commenting on the fact that American planes and American pilots in growing numbers now are helping carry the battle to Germany, the RAF said that the arrival of the American air forces was a "great day" for the British and that it was a "great day" for the world. The RAF said that the arrival of the American air forces was a "great day" for the British and that it was a "great day" for the world.

U. S. Contributions
Among the contributions which the United States already has made to the air war is the air military mentioned specifically previous bombing attacks on Germany by flying torpedoes and the work done by American-made bombers, Liberators and Catalinas with the coastal command.

Hold Edge
During the past year, the statement said, home-based British fighters have shot down "close to a thousand" German planes over Europe while 200 Nazi night raiders have been destroyed over Britain.

RUSSIA
(Continued from Page 1)
engagements with the enemy advancing in the direction of Novorossiysk, Soviet headquarters said.

FIRST PARADE OF YANKS IN LONDON

American troops parade through the streets of London for the first time since their arrival in the British Isles. Following the parade, the doughboys were feted at a luncheon during which Gen. J. C. Lee, U. S. supply chief in Europe, told them that they were not just to do this beautiful London but to win the war for them.

Dieppe Raid Newsreel Pictures Shown Here
Newsreel pictures of the Dieppe raid on the European coast were shown at the American Embassy here today. The pictures showed the American soldiers who landed on the beach without loss. The pictures showed the American soldiers who landed on the beach without loss.

ESTATE LIABILITIES TO REACH MILLION
Estimate Made After Cleveland Ends Life.

By The Associated Press
CLEVELAND, Sept. 3.—A securities and exchange commission estimate today estimated liabilities exceeding a million dollars would result from investment operations of Albert R. Anderson, 33, whose body was found yesterday in a custom-made field garage at his Grange county farm.

WAR HERO

This army flier, now dead, has been described as the "most heroic" flier of the war in the Pacific area by Lieut. Boyd "Buzz" Wagner, the U. S. ace who bagged so many planes in raids over Burma.

Attitude Toward Enemy After War Needs Careful Plan

By DEWITT MACKENZIE, White World War Analyst

Nearly every day we hear that we will be dealing with the permanent peace after the war. But what about the attitude toward the enemy after the war? This is a question that needs careful planning.

Depends on Attitude
Any way, it is all these things that the United States must take into consideration in planning for the future. The attitude toward the enemy after the war will depend on the attitude of the United States.

Treasury Asks Lower Exemptions on Taxes
WASHINGTON, Sept. 3.—The treasury asked congress today for legislation which would lower the exemptions on taxes for war workers.

Industry Reported To Favor Ickes for Job.

By The Associated Press
WASHINGTON, Sept. 3.—Demands for a single government wartime oil administrator, to end the division of authority blamed in several quarters for public confusion, appeared headed today toward a showdown at the White House.

July and August Best Months Against U-Boats

By The Associated Press
LONDON, Sept. 3.—July and August of this year were the most successful months of the entire war in the numbers of axis submarines destroyed. A. V. Alexander, first lord of the admiralty, told a war anniversary luncheon today.

Do You Know—

1,000 Witness Opening Marion County Fair Harness Racing Program

Delaware and Bucyrus Horses Post Heat Victories on Inaugural Card.

An estimated 1,000 fans witnessed the inaugural Marion county fair harness racing program yesterday at the fairground track.

Two of three races were won in straight heats, while the third, the two-year-old pace stake, was a divided win. Wayne "Curley" Smart, Grand Circuit driver for Delaware's Joseph A. Neville stables, won both heats of the two-year-old first stake with Hank Thompson, a brown gelding. The Delaware horse beat off Hava Hanover's stretch bid to win the first heat by nearly a full length.

The gelding ran second to Hava Hanover at the half in the second heat, but finished a half length ahead after making his bid at the three-quarter point. Hava Hanover, a bay colt, is owned by Walter J. Michaels of Bucyrus. Mr. Michaels was recently appointed to the state racing commission by Gov. John W. Bricker.

Golden Abbey, another Walter J. Michaels horse, cupped the first heat of the two-year-old pace stake by holding out Hartley in the stretch. Hartley, a bay colt driven by Harry Short of Columbus, won by a nose over Golden Abbey in the second heat.

Ben Phoenix, Canton reinsman campaigning extensively on the Grand Circuit, boosted Princess Mite, a black mare, to three straight heat wins in the 2:24 trot. A Richmond horse, Senish, owned by Daley Haines, finished 3-1-1.

Judges for the program included Dr. O. C. Alspach, Jim Lott and Dr. N. Siffrin. Harvey Hartman of Quakertown, Pa., is serving his fourth straight year as starting judge. LeRoy Shrontz and Russell Wickersham, both of near Marion, were the outriders. Fair racing was to continue today and Friday. This afternoon's card included the \$1,000 Chamber of Commerce pacing derby, the \$1,000 Ohio three-year-old trot.

Dodgers Stretch National League Lead Over Cardinals

DISMAL 1942 GRID SEASON AHEAD FOR WEST POINT TEAM

Four Navy Game Starters Form Nucleus of Army Squad.

This is one of a series of articles on football prospects at leading colleges and universities.

By The Associated Press

WEST POINT, N. Y., Sept. 3—Army will put an air-minded football team on the field this year, but that doesn't mean what the fans might think it means. It means just what it says. It means 18 of Coach Earl (Red) Blaik's carefully picked players are enrolled in the newly-established aviation training course at West Point, which means they won't have much time to concentrate on football, making Blaik's already tremendous job of building a representative eleven just that much more difficult.

To begin with, he lost 17 of the first 30 players of the 1941 squad, including all but four of the men who started the Navy game. When it is considered that the 1941 team was any in capable reserves, this loss is the more apparent.

In Second Year

Last year was Blaik's first as head coach of the Army. He found a comparatively green team when he went there. This year the situation is unchanged, except for the worse.

"We are in the same position as we were last year, except we are less experienced," Blaik says. "Now if we could pick up eight or 10 men from the plebe class, well, it would help a great deal."

The plebe participation question still is unsolved at West Point, but Blaik makes no secret of the fact he would like to see the first-year players declared eligible, inasmuch as most of the teams the Cadets meet will be playing freshmen.

Of last year's starters in the Navy game only Hank Mazur and Ralph Hill, backs; Willard Wilson, guard; and Robin Olds, tackle, remain.

7 Spots Open

Most of the remaining seven positions are wide open. There is one experienced end, 180-pound Jim Kelleher, a reserve last year and first captain of the corps. Tom Meseriu, a 205-pounder who also was a 1941 reserve, will bid for a tackle job opposite Olds. There is no outstanding candidate for the guard position opposite Wilson. Just a lot of guys named Joe, so to speak. And there isn't an experienced center on the field.

Mazur, a work horse, and Hill undoubtedly will take care of two of the backfield jobs, and a third probably will go to Red Jarrell, a sub last year. Blaik is counting on him to call signals. Jim Watkins, a reserve fullback last year, is the other experienced ball carrier, and he has to dench himself to weigh 158 pounds.

Former West Pointer

Blaik is not unduly perturbed by the general outlook, however. A graduate of West Point himself, he knows where football fits into the picture.

"The game is purely incidental

MID-ATLANTIC RACE IN FINAL STAGES

Only 5 Days Remain But Title Not Decided.

By The Associated Press

CHARLESTON, W. Va., Sept. 3—Only five days remain in the Mid-Atlantic league season, but despite Charleston's three and one-half game lead over second place Dayton, the championship is far from decided.

The league-leading Senators must pack 10 games into those five days and Dayton seven. Then, if Charleston finishes the season in first place but with a margin of two games or less over the Ducks, a post-season double-header will determine the pennant winner.

The post-season possibility now grows from the postponement of a Dayton-Charleston twin bill at the West Virginia city, Aug. 22.

H. E. Holmes, Dayton manager, said league President Elmer Daily had ruled that the double-header must be played after the regular season if Dayton failed to win the pennant but finished the season within two games of the Senators.

Charleston gained half a game in the standings last night, defeating Springfield 2-1 and 4-2 as Dayton won a single contest 6 to 0 from Erie. Canton blanked Zanesville 10 to 0 to take over third place from Erie.

Team	W.	L.	Pct.
Charleston	4	4	.500
Dayton	3	5	.375
Canton	3	5	.375
Erie	2	6	.250
Springfield	1	7	.125
Zanesville	0	8	.000

CLEVELAND INDIANS BEAT PHILADELPHIA ATHLETICS, 12 TO 3

Win Boosts Indians to Within 1/2 Game of Third-Place Brownies.

By The Associated Press

CLEVELAND, O., Sept. 3—Fans of the Cleveland Indians couldn't believe it today when they looked at the box score of yesterday's Cleveland-Philadelphia baseball game, but it was true.

Yes sir, the Tribe pounded out 12 hits for a 12 to 3 victory. To the fans, that hitting barrage looked like a deluge after the drought that had held the Clevelanders to less than four runs in the last 24 games.

And the victory pushed the Tribe within a half-game of the St. Louis Browns, who lost a double-header at New York, and promised a battle royal for third place when Cleveland opens a four-game series at St. Louis tomorrow. It also put the Redskins five games in front of the fifth-place Detroit Tigers, who dropped two at Boston.

Every Cleveland batter got at least one safety in their final eastern game of the season, and Manager Lou Boudreau had a perfect day at bat, getting a double and two singles.

The Indians opened the track meet in the first inning with eight runs, jumping on Lefty Herman Besse for eight hits after two were out.

The Tribe tallied once in the fourth and twice in the ninth. Tom Ferrick posted his third victory. Following this slugfest, the Indians rested today before the day-night twin bill opening the St. Louis series.

The Indians acquired three up and coming right-handed pitchers from the minor leagues yesterday.

Foremost among them is Bryan Stephens of the Cedar Rapids, Ia., club, leading hurler of the Three-I league with 20 victories and four losses. The others are Allie Reynolds, 24, and Paul Calvert, 24, both of whom were purchased from Cleveland's Wilkes-Barre, Pa., farm.

A patent has been granted to two New Jersey inventors for a mechanical method for breaking up ice as it forms on the leading edges of airplane wings.

Manager Durocher Uses Five Pitchers As Brooklyn Stops Cincinnati, 3-2; St. Louis Loses to Giants 8-2.

By The Associated Press

THE Brooklyn Dodgers may have a five-game lead in their National League pennant race, but they are nervous.

What has been going on with his pitchers in recent days seems to be a desperate attempt to prevent posterity from confusing the Dodgers with those of troops.

Yesterday Durocher called on no fewer than five of his pitchers to curb the fabled Cincinnati Reds, 3-2 in 12 innings. From left to right and start to finish his field included Curt Davis, Casey, Kirby Higbe, Les Webber and Whitlow Wyatt.

Davis is Starter

Davis started the game, although he was not in the line-up for a pitcher in the ninth. He pitched six innings, allowing three runs, two earned, and one unearned. He was replaced by Kirby Higbe in the seventh.

The Pirates stopped the Yankees from scoring four runs in the eighth inning, but they were out of the game in the ninth. The Yankees scored a run in the eighth, but the Pirates' defense was too strong.

The Boston Red Sox kept pace with the Yankees by taking a double bill from the Detroit Tigers, 3-2 and 4-2.

The Chicago White Sox wiped out the Washington Senators 8-2 and 7-6, making 15 hits in the first game and 12 in the second.

TO PLAY ON FRIDAY

By The Associated Press

HENRICH BEGINS
COAST GUARD DUTY

"To Do Part," Massill-
By League Says.

Massill, 27-year-old New York City native, slipped into the role of coast guard duty. He was assigned to the first class of the coast guard school at Annapolis, Md., and began his duties in the physical fitness class.

Henrich, a rookie—a greenhorn in the navy—said he had never before just like I'm going to learn this business.

Henrich, who says he hasn't any regrets about leaving baseball, said he was a big league player. But I know it's time to go now.

Henrich, who was a regular in the district headquarters, was assigned to the coast guard school at Annapolis, Md., and began his duties in the physical fitness class.

Kansas City Blues,
Columbus Red
Birds Tied for Lead

By The Associated Press.
Even the American association's second division clubs, almost forgotten in the spectacular pennant fight being waged in the upper bracket, are being heard from as the race enters its final five days of action.

Last night all celebrated with victories over the leaders, although Indianapolis, after defeating Columbus in the first game of a double-header, 9-1, lost the second 5-4.

For Columbus, the even split enabled it to jump from third to a first place tie with Kansas City, since the Blues and second place Milwaukee both lost.

Another first division change resulted when Louisville, beaten twice by Toledo Tuesday, lost the tables in a double-header last night and regained fourth place from the Mudhens.

The standings today read:

	W	L	Pct.
Kansas City	81	67	.547
Columbus	81	67	.547
Milwaukee	79	68	.545
Louisville	76	72	.514

Kansas City, winner of six straight games, lost to Minneapolis, 5 to 2, last night. St. Paul defeated Milwaukee 5 to 4, and Louisville scored a double win over Toledo, 8-1 and 4-2.

A wonder device that can carry the children has been invented. It is called the "Baby Carrier." It is a small, portable, and easy to use device that can carry the children. It is made of a strong material and has a comfortable seat for the child. It is perfect for use in the car, on the street, or in the house.

With the largest mine in Colorado and other deposits in Utah and Arizona the United States is producing about 50 per cent of the world's molybdenum. Instead of being a strength steel.

MAT NEWCOMER

SOLDIER THOMAS

Soldier Thomas To
Wrestle Here
Tonight.

Wild Bill Zimovich, the central Ohio wrestling ace, and Jack Bloomfield of New York City will clash in the two-hour main-gate match in tonight's weekly Armory area wrestling session.

The match promises to be one of the best of the season in many months. Last week the pair met in a semi-final match with Bloomfield winning on a single fall and the disqualification of Zimovich for unnecessary roughness.

Because of the disagreement last week and Zimovich's belief that Referee Les Fishbaugh will be in the ring only to start the fight count a fall or in case they get tied up on the ropes.

Axel Madsen, the lanky Danish star who is becoming a big favorite with the local fans, will come up against his toughest test when he tangles with Soldier Thomas of Portland, Ore., in the one-hour semi-final match.

In a main-gate bout here last week, Madsen easily defeated rugged Ivan Kalimoff, the Mad Russian.

The one fall 30-minute opener will bring together Sailor Olson of Boston and Lefty Pacer, a well-known Toledo athletic star. Olson recently scored a win over Billy Venable, the Dallas, Tex., sensation.

Snatches
of Sports

By HUGH FULLERTON, JR.,
Wide World Sports Columnist

NEW YORK, Sept. 3.—Fun with a gun? J. F. McCoskey, who works in a Wichita, Kas., airplane factory, comes up with a new version of trapshooting that has made a big hit out that way. He calls it "Jap-shooting." Instead of the conventional clay pigeon being tossed from a trap, a guy with a bow shoots a target consisting of a dummy with unmistakable Japanese features rolled up in a parachute. As the Jap glides toward the ground, the marksman with a shotgun gets his crack at it. The Notre Dame football ticket office reports receiving an order from the Solomon Islands—merely a marine who wanted to make sure his parents and his girl would see some games.

Stars and Gripes—Here's one reason baseball scouts go nuts: The Cincinnati Reds recently received a letter from a Kentucky village telling of the feats of a local 15-year-old who was hitting .832 and had belted 30 homers in 14 games. A scout was dispatched immediately. A day or so later he came back with a very red face to report that the hero's team averaged eight years in age and the opposition nine.

Today's Guest Star—Dan Parker, New York Daily Mirror: "The MacPhail hesitated until the last possible moment before letting himself in for such competition as Bobo Newsom will give him conversationally. However, the situation called for desperate measures, so there's now an eternal talking triangle in Brooklyn, made up of the L.P., the Mouth and the Teague."

NEWS AT A GLANCE

By The Associated Press.
WASHINGTON—Secretary of Commerce Jesse H. Jones revealed today that the war damage corporation has insured property in the United States against enemy attack for between \$50,000,000,000 and \$100,000,000,000. Jones, who is chairman of the company, made this report to the first directors' meeting of the agency today.

By The Associated Press.
WASHINGTON—America's older men would rather do a bit toward winning the war than to retire to a life of ease. Social security board figures disclosed today that of the 825,000 men over 65 now eligible for old age insurance benefits under the federal security program, 585,000 have deferred acceptance of the pensions and remain at their jobs.

By The Associated Press.
HOLLYWOOD—Nicky, for six years a lively member of radio's one man's family, is dead. The body of Walter Paterson, 31, who had enacted the role, was found last night in his automobile in the Hollywood hills. A hose led from the exhaust pipe to the drivers compartment.

HOLLYWOOD—Will James, 50, who years ago left the Montana rangelands of his birth and won fame as writer and painter, died today at Hollywood Presbyterian hospital. James was author of more than a score of self-illustrated books and uncounted short stories and articles.

New Glass Heating Process Speeds
Production of Military Equipment

By HOWARD W. BLAKESLEE
Wide World Science Editor
SOUTHBRIDGE, Mass. — A small change in the temperature at which glass has been cooked for centuries has tremendously speeded up the making of glass eyes for army, navy and air corps. The innovation makes perfect glass more than 85 per cent of the time in place of a 50 per cent record for making range finders, binoculars, prisms, periscopes, telescopes, aircraft gun sights, navigation instruments—in fact, the entire range of glass known as precision lenses.

The change also removes difficulties in some eyeglasses, such as the trouble of keeping the line of division invisible between the two halves of bifocals.

New Process
The new process was discovered by Dr. E. D. Tillyer, research director of the American Optical Company, the man who developed the present green goggles for protection against ultra-violet and heat in aviators' helmets. The company announced the discovery today.

All optical glass is cooked, that is heat-treated or annealed, as the final step in its production. The heating is never enough to melt, but when followed by slow cooling removes the strains which are the pull of one part of the interior of the glass against another interior section.

But there has always been trouble that the old annealing failed to remove. Thus a precision lens has to be so good that the angle at which it bends a ray of light won't spread more than about one inch in five miles.

This accuracy failed in about half of the optical glass. The trouble was in the annealing. The strains were out, but the molecules of glass had failed to settle, or pack, perfectly.

Lost Accuracy
For this same lack of correct packing there were occasional instances where apparently perfect optical glasses lost their accuracy after being stored for years. The molecules of glass, in that period, simply shifted a bit because they had not been comfortable in the positions where the annealing left them.

Dr. Tillyer had a theory that some temperature different from the classical annealing one might give better results. With the aid of humble furnaces and microscopes he measured the rate of expansion of glass rods at various temperatures, all less than the melting point.

At one temperature the expanding glass behaved in a peculiar manner. The temperature and the peculiarities are secrets.

But at that temperature annealing produces almost perfect optical glass. All the glass bends light at the same angle with far less deviation than ever known before.

This is an immense advantage in the mass grinding required to produce the eyes for the army and the navy. Naturally all the eyes are good, the first time, and furthermore they are more accurate than the eyes previously available.

YOUR HEALTH

By LOGAN CLENDENING, M.D.

Optimum Diet.

Last winter Dr. A. J. Carlson, professor of physiology at the University of Chicago, started an audience of medical students and scientists by saying, in the midst of all the discussion about improving the national nutrition, "Nobody on earth knows what an optimum diet is."

Starting, because everybody has been talking as if it were generally agreed exactly what the optimum human diet is.

What is the definition of an optimum diet? Well, it is a little more than an adequate diet. The medical dictionary defines optimum thus: "The temperature of other conditions at which vital processes are carried on with the greatest activity."

So an optimum diet is the diet with which vital processes are carried on with the greatest activity. An adequate diet maintains health. Thus you can keep healthy rats up to 30 generations in more than average activity and fertility on a diet which consists of one-sixth whole dried milk and five-sixths of ground whole wheat.

Increase the proportion of dried milk to one-third and there is a marked improvement in nutrition and positive health. Growth is more rapid and efficient, death rate is lower, the period of the prime life is increased and fertility is greater.

But as you keep adding food elements a place is reached where obesity and sluggishness appear. Initiative and activity decrease. Somewhere in between is the theoretical optimum diet.

We know in a general way what it is, but the scientific mind likes exact definition in mathematical terms and that we cannot give for the optimum diet.

A group of San Francisco dentists whom we quoted recently, Drs. Collins, Jensen and Beck, in the course of their experimental work sent out a questionnaire to a number of nutritionists, physiologists and clinicians trying to find out what the definitions and specifications of an optimum diet are.

A large number refused to attempt a definition, saying that on account of the incompleteness of the present knowledge of nutritional requirements, a specific answer could not be written.

One research worker said, "If human beings were in uniform in familial and inheritance characters as a colony of rats, an optimum diet could be reliably ascertained. But they are not. The optimum diet of the Eskimo is quite unlike that of the Negro in the bayous of Louisiana. One may find a myriad of varying tastes and digestive capacities which affect the utilization of diet."

In general, as I say, we know that a human being must have at least 50 grams of protein daily, from 2,000 to 3,000 calories depending on his activity, and vitamins and minerals. So much milk, eggs, meat, grains, cereals, fruits and vegetables are the basic products which contain these chemical elements. But how much of the calorie intake should be supplied by carbohydrate, or fat, or protein, we do not know. Can you safely reduce the carb-

Pitfalls of Love

By ADELE GARRISON

"I'M NOT even going to try," said Mary, and she sprang to a sitting posture on the side of the bed as if I had prodded her with something sharp.

"You mean—?" she began, then switched to a protest. "Don't get me wrong! I'm begging, 'I'm willing to go on with the thing, although I'm getting to hate Steve so much that it's all I can do to manage a smile or pleasant word for him. But I promised you and Grandpa Spencer that I'd see this through to a finish, and I'm not going back on my word."

"Didn't you hear what my father said when he told you he thought you had succeeded in locating the document?" I asked quietly.

"Why—why—?" she stammered. "I heard him say something about never having to go out alone with Steve again, but I thought he meant on an after-theater spree like this one tonight, and that he still wanted me to keep up the dinner engagements with Steve and Ollie."

"Oh, I know that," she said quickly.

"But I went on, 'since he has recovered the stolen paper and you have supplied him with no much other valuable data, he feels that the job can be taken over by somebody else who has been on watch.'"

Steve Closely Watched

"You mean," she said, "that he has other people watching Steve closely?"

"Stephen Redfield rarely makes a move, sleeping or waking, that isn't known to one or another of my father's agents," I said.

"They must consider the lad important," she commented, trying hard to appear nonchalant.

"They do," I told her, "and they hope they are getting near the end of the trail. My father thinks the finding of this paper so important that he believes your work is almost finished. And he has told you he will not ask you to go out alone with Steve again."

"But," I went on reluctantly, "he does wish you and Ollie to go

out with him two or three times. I told Mary, and she sprang to a sitting posture on the side of the bed as if I had prodded her with something sharp.

"You mean—?" she began, then switched to a protest. "Don't get me wrong! I'm begging, 'I'm willing to go on with the thing, although I'm getting to hate Steve so much that it's all I can do to manage a smile or pleasant word for him. hydrate intake for the sake of the teeth? The exact answer is unknown.

QUESTIONS AND ANSWERS

ANON: Is drinking buttermilk of an benefit to a person with high blood pressure and heart trouble?

ANSWER: It does not have any influence one way or the other.

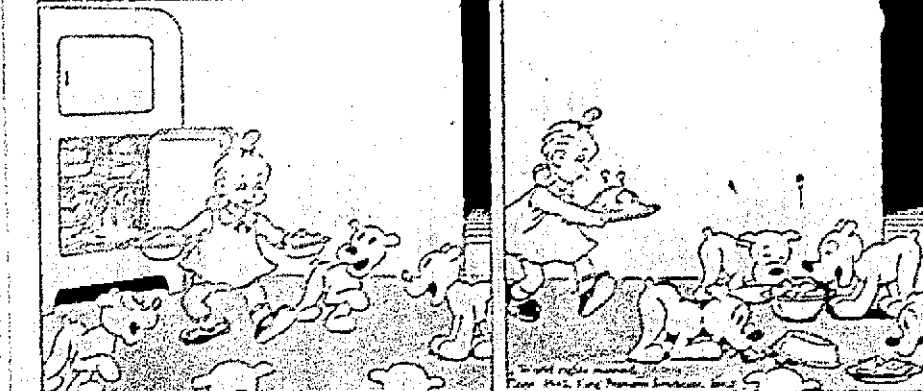

It's Not Draftee's Fault

If He Isn't in Army

TRYON, N. C. — All those questions on the selective service questionnaire didn't mean much to a Tryon youth, who couldn't read well anyhow.

So, in uneven red pencil strokes he wrote across the front of the questionnaire: "I's ready when you're ready."
